Hi Nick

Forgive me sending an email rather than calling - I can discuss this further on Monday before 3pm if that helps.

My apologies for not updating you sooner. I do have some good news. I have now been able to secure the staff resource and required funding to amend to the Traffic Regulation Order that governs what is enforceable for that bay. I have also gained approvals from the local County Councillor and Sussex Police to proceed so that's most of the steps now taken. What happens next is for WSCC to publically advertise the amendment and this needs to be for a period of three weeks. Anyone can respond in support and also to object during this time. If we have fewer than 5 objections the local County Councillor can then sign off the order without the need to take a decision report to the County Local Committee and we can then enforce. Can I assume that the only likely objection we get would be from the motorbike shop as the other traders would be happy that the motorbikes are removed?

Best Regards
